# Appendix 11: Biodiversity Action Plan Summary

## **Hundred of Wisbech Internal Drainage Board**

## Biodiversity Action Plan Summary for Hundred of Wisbech Internal Drainage Board (346)

The actions listed in this appendix summarise Hundred of Wisbech Internal Drainage Board's Biodiversity Action Plan as a part of the larger Middle Level Biodiversity Action Plan. The plan has been prepared in accordance with the commitment in the Implementation Plan of the DEFRA Internal Drainage Board Review for IDBs to produce their own Biodiversity Action Plans by April, 2010.

It also demonstrates the Board's commitment to fulfilling its duty as a public body under the Natural Environment and Rural Communities Act 2006 to conserve biodiversity.

Many of the Board's activities have benefits for biodiversity, not least its water level management and ditch maintenance work. This Biodiversity Action Plan will help the Board to maximise the biodiversity benefits of its activities and demonstrate its contribution to the Government's UK Biodiversity Action Plan targets.

The Board has adopted the Biodiversity Action Plan as one of its policies and is committed to its implementation. It will review the plan periodically and update it as appropriate.

|                                       | Date |
|---------------------------------------|------|
| Stuart Ayers<br>Chairman of the Board |      |

This Biodiversity Action Plan is a public statement by the Board of its biodiversity objectives and the methods by which it intends to achieve them.

We would welcome appropriate involvement in the delivery of the Plan from interested organisations, companies, and individuals.

You can contact us about this Biodiversity Action Plan by writing to the following address:

Hundred of Wisbech Internal Drainage Board Middle Level Offices Dartford Road March Cambs PE15 8AF

or by email: admin@middlelevel.gov.uk

Further information is available on the Middle Level Commissioners' website: http://www.middlelevel.gov.uk/

or from the Environmental Officer employed by the Board to advise on biodiversity matters: cliff.carson@middlelevel.gov.uk

#### **Biodiversity Audit**

#### Map

The location map shows the drainage district, Adopted drains, Middle Level main drains, Environment Agency main river and any relevant designated sites and ditches of biodiversity interest.

#### **Designated Sites**

There are no internationally designated sites in the District, no national or local statutory sites and no County Wildlife Sites, although the drainage district is adjacent to the River Nene County Wildlife Site.

#### **Habitats**

Key habitats for Hundred of Wisbech IDB:

- Drainage ditch
- Reedbed
- · Open water

#### **Species**

Key species for Hundred of Wisbech IDB:

- Water vole
- Otter
- Bats
- Kingfisher
- Barn owl

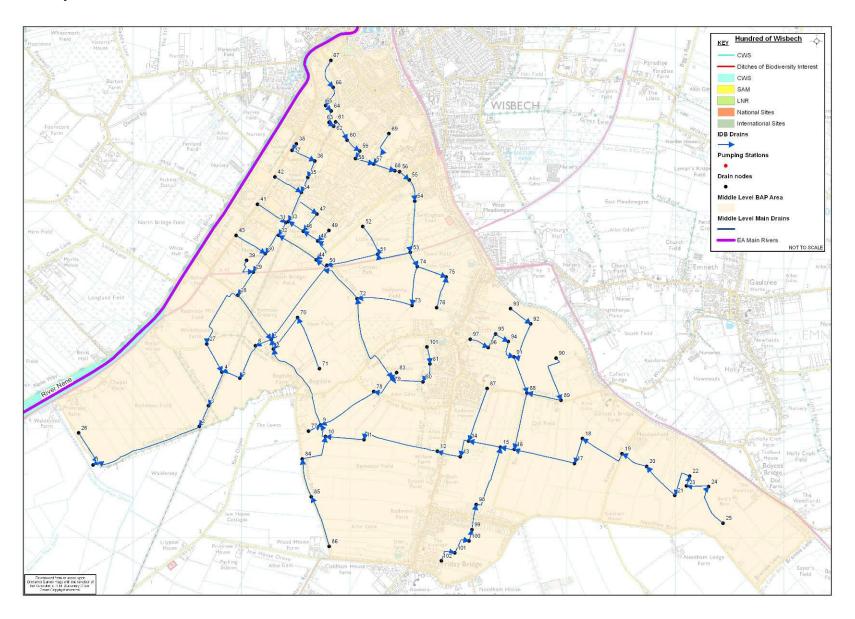

#### **Procedural**

Training and capital works are covered by a Procedural Action Plan.

#### **Notes**

Water voles have been recorded on some of the IDB drains, and will be assumed to be present when carrying out work. Otters use the River Nene. A list of species recorded in the drainage district is provided at the end of this document. The list is restricted to BAP species and species listed under the Wildlife & Countryside Act 1981.

## **Location Map**

## **Drainage Ditch Action Plan**

| Target<br>Reference | Target   | Action<br>Reference   | IDB Actions   | Partners   | Date   | Indicators  | Reporting |
|---------------------|--|---|---|--|--|---|-----------|
|                     | 1.1  | Establish and maintain a management plan for routine IDB operations incorporating key biodiversity features | Environmental<br>Officer  | 2015   | Plan finalised and followed each year                              | Annual after<br>plan created  |           |
| 1                   | Manage ditches for biodiversity as well as for drainage  | 1.2   | Look for opportunities to provide natural erosion protection such as marginal plant ledges when re-profiling ditches  | Environmental<br>Officer   | Ongoing  | If re-profiling is carried out, opportunities identified                    | Annual    |
|                     | 1.3  | Provide natural erosion protection as in 1.2 if opportunities available                                     | Environmental<br>Officer  | Ongoing  | Length of ditch with<br>ledge / natural<br>vegetation<br>revetment | Annual if opportunities available   |           |
| 2                   | Identify ditches of conservation interest and manage appropriately                               | 2.2   | Ensure appropriate management of ditches for priority species   | Environmental<br>Officer, Plantlife,<br>Wildlife Trust                           | Ongoing  | Specified in management plan  | Annual    |
| 3                   | Support the Environmental Officer in working with landowners to benefit wildlife in the district | 3.1   | Refer private landowners to<br>the Environmental Officer for<br>advice on creating field<br>margin buffer zones and<br>wildlife-friendly ditch<br>management              | Environmental<br>Officer, Natural<br>England, Wildlife<br>Trust, FWAG            | Ongoing  | Number of contacts<br>received and<br>passed to<br>Environmental<br>Officer | Annual    |
| 4                   | Control invasive species   | 4.1   | Report any sightings of non-<br>native invasive species<br>immediately to the<br>Environmental Officer and<br>control as appropriate (see<br>Appendix F for species list) | Environmental<br>Officer,<br>Environment<br>Agency, Plantlife,<br>Wildlife Trust | Ongoing  | Reports to<br>Environmental<br>Officer                                      | Annual    |

## **Reedbed Action Plan**

| Target<br>Reference | Target   | Action<br>Reference | IDB Actions  | Partners   | Date    | Indicators   | Reporting                       |
|---------------------|--|---------------------|--|--|---------|--|---------------------------------|
| 1                   | Identify, assess and<br>map any areas of<br>reedbed over 0.5ha<br>in size                                  | 1.1                 | Pass details of any known areas to MLC<br>Environmental Officer  | Wildlife Trust,<br>Natural England,<br>Environment<br>Agency | 2012    | Review of reedbed areas carried out  | 2013                            |
| 2                   | Support appropriate reedbed creation   | 2.2                 | Manage the District adopted drains, where possible, to assist private landowners who wish to create areas of reedbed on their own land   | Wildlife Trust,<br>Environment<br>Agency                     | Ongoing | (a) Number of<br>requests<br>received<br>(b) Number of<br>landowners<br>assisted | In response<br>to<br>approaches |
| 3                   | Take conservation value of reedbed into account when planning and carrying out ditch and river maintenance | 3.2                 | Where reeds are present, commence mowing or cleansing work outside the bird breeding season (7 <sup>th</sup> April – 15 <sup>th</sup> July). Where reeds are growing in water be aware of the potential for late-nesting reed warblers being present until late August and avoid mowing in that location. In exceptional circumstances where this is not possible, seek advice from the Environmental Officer. | Environmental<br>Officer, Wildlife<br>Trust, RSPB            | Ongoing | Reeds not cut<br>during bird<br>nesting<br>season                                | Annual                          |

## **Open Water Action Plan**

| Target<br>Reference | Target   | Action<br>Reference | IDB Actions  | Partners   | Date    | Indicators   | Reporting |
|---------------------|--|---------------------|--|--|---------|--|-----------|
| 1                   | Promote the creation of ponds, lakes and reservoirs in appropriate areas | 1.1                 | Consider pond creation as mitigation when a ditch has to be filled in or culverted | Local authorities,<br>Amphibian & Reptile<br>Conservation, Wildlife<br>Trust | Ongoing | (a) Number of<br>mitigation<br>opportunities (b)<br>Number of ponds<br>created | Annual    |

#### Internal Drainage Board – Biodiversity Action Plan

|   |  | 1.2 | Support creation of flood storage areas and reservoirs  | Environment Agency,<br>Natural England,<br>Wildlife Trust, RSPB | Ongoing | Number of projects involved with                           | Annual                              |
|---|--|-----|---|---|---------|--|-------------------------------------|
|   |  | 1.3 | Assist private landowners with advice, information or contacts as necessary   | Amphibian & Reptile<br>Conservation, Wildlife<br>Trust          | Ongoing | (a) Number of information requests (b) Number responded to | Annual                              |
| 2 | Look for opportunities<br>to create open water<br>habitat when<br>managing ditches | 2.1 | Create a pool at an appropriate ditch junction when re-profiling (see the Drainage Channel Biodiversity Manual, technique CL3)) | Environmental Officer   | 2010    | One pool successfully created                              | When<br>created or<br>every 5 years |

#### **Water Vole Action Plan**

| Target<br>Reference | Target  | Action<br>Reference | IDB Actions  | Partners                                    | Date    | Indicators                                       | Reporting |
|---------------------|---|---------------------|--|---|---------|--|-----------|
| 1                   | Manage ditches according to the law and to best practice for water vole | 1.1                 | Assume water voles are present when carrying out works (discuss special circumstances with the Environmental Officer) and follow the ADA water vole mitigation guide | Environmental<br>Officer                    | Ongoing | Measures<br>incorporated in<br>management plans  | Annual    |
|                     |   | 1.2                 | Publicise good practice for rat control near drainage ditches  | Environmental<br>Officer, Wildlife<br>Trust | Ongoing | Good practice publicised                         | Annual    |
|                     | Enhance drainage  | 2.1                 | Look for opportunities to add a marginal shelf when re-profiling banks   | Environmental<br>Officer                    | Ongoing | (a) Opportunities identified (b) Measures taken  | Annual    |
| 2                   | 2 ditch habitat to benefit water vole                                   | 2.2                 | Consider using coir roll to stabilise<br>banks and provide marginal<br>vegetation  | Environmental<br>Officer                    | Ongoing | (a) Sites<br>considered<br>(b) Measures<br>taken | Annual    |

#### Internal Drainage Board – Biodiversity Action Plan

| 3 Mc | Monitor water vole        | 3.1 | Set up a survey programme to monitor water vole populations  | Environmental<br>Officer, Wildlife<br>Trust | 2010    | Surveys carried out  | Annual |
|------|---------------------------|-----|--|---|---------|--|--------|
|      | populations               | 3.2 | Provide data on water vole to the relevant Biological Records Centres  | Environmental<br>Officer, CPBRC,<br>NBIS    | Ongoing | Data sent via<br>Environmental<br>Officer annually             | Annual |
| 4    | Control mink as necessary | 4.2 | Carry out mink control as part of the Middle Level programme and report all sightings to the Environmental Officer | Environmental<br>Officer                    | Ongoing | (a) Number of<br>trapping days<br>(b) Number of mink<br>caught | Annual |

## **Otter Action Plan**

| Target<br>Reference | Target   | Action<br>Reference | IDB Actions   | Partners   | Date             | Indicators   | Reporting |
|---------------------|--|---------------------|---|--|------------------|--|-----------|
| 1                   | Improve otter habitat  | 1.1                 | Identify and maintain existing key bushes and trees near watercourses likely to be important for otters   | Environmental<br>Officer                             | 2012 and ongoing | Sites identified and<br>listed in<br>management plans    | Annual    |
| 2                   | Monitor otter populations  | 2.3                 | Ensure any dead otters are reported to the Environmental Officer and transferred to the Environment Agency for post mortem                        | Environment<br>Agency                                | Ongoing          | Otters reported to<br>Environmental<br>Officer, if found | Annual    |
| 3                   | Reduce otter deaths<br>related to eel and<br>crayfish trapping<br>and road traffic | 3.1                 | Report incidents of suspected illegal netting, trapping or fishing to the Environment Agency Fisheries Officers and the MLC Environmental Officer | Environment<br>Agency, Angling<br>Clubs & syndicates | Ongoing          | Incidents reported, if discovered                        | Annual    |

## **Bats Action Plan**

| Target<br>Reference                      | Target | Action<br>Reference                          | IDB Actions   | Partners   | Date  | Indicators  | Reporting                                 |
|--|--------|--|---|--|---|---|---|
| 1 Improve habitat for bats               |        | 1.1  | Put up at least 2 bat boxes at appropriate sites, e.g. pumping stations               | Bat Conservation<br>Trust                            | 2015  | Number of bat boxes sited                             | 2015 with<br>annual<br>progress<br>report |
|  | 1.2    | Pollard suitable trees to provide bat roosts |   | Ongoing  | Number of trees pollarded   | Annual  |   |
|  |        | 1.3  | Identify potential sites for a bat hibernaculum, e.g. in disused buildings or tunnels | Environmental<br>Officer , Bat<br>Conservation Trust | As opportunities arise  | (a) Potential sites<br>looked for (b) Site<br>created | Annual                                    |
| Collect 2 information on bat populations | 2.1    | Monitor bat boxes                            | Bat Conservation<br>Trust   | 2015 onwards   | (a) Number of<br>boxes monitored<br>(b) Number of<br>boxes used by bats | Annual  |   |
|  | 2.2    | Pass bat box information to CPBRC and NBIS   | Environmental<br>Officer, CPBRC,<br>NBIS  | 2015 onwards   | Data via<br>Environmental<br>Officer annually                           | Annual  |   |

## **Kingfisher Action Plan**

| Target<br>Reference | Target                 | Action<br>Reference | IDB Actions  | Partners                 | Date    | Indicators                    | Reporting                                 |
|---------------------|------------------------|---------------------|--|--------------------------|---------|-------------------------------|---|
| 1                   | Improve the quality of | 1.1                 | Provide at least one potential nest hole in sheet pilings                      | Environmental<br>Officer | Ongoing | Number of nest sites provided | 2015 with<br>annual<br>progress<br>report |
|                     | kingfisher habitat     | 1.2                 | Leave kingfisher fishing perches<br>where possible (e.g. occasional<br>branch) | Environmental<br>Officer | Ongoing | Number of perch sites left    | Annual                                    |

#### Internal Drainage Board – Biodiversity Action Plan

| 2 | Collect records of kingfisher breeding between March and July | 2.1 | Note sightings of potential breeding<br>kingfisher and pass information to<br>CPBRC and NBIS via the<br>Environmental Officer | Environmental<br>Officer,<br>CPBRC, NBIS | Ongoing | Data sent via<br>Environmental<br>Officer annually | Annual |  |
|---|---|-----|---|--|---------|--|--------|--|
|---|---|-----|---|--|---------|--|--------|--|

## **Barn Owl Action Plan**

| Target<br>Reference                             | Target                      | Action<br>Reference                                  | IDB Actions   | Partners                             | Date   | Indicators   | Reporting                              |
|---|-----------------------------|--|---|--------------------------------------|--|--|--|
| Improve the<br>1 quality of barn<br>owl habitat |                             | 1.1  | Put up at least 2 barn<br>owl nest boxes in<br>suitable locations                                 | Wildlife Conservation<br>Partnership | 2015   | Number of nest boxes provided  | 2015 with<br>annual<br>progress report |
|   | 1.2                         | Pollard suitable trees to provide natural nest sites | Environmental Officer   | Ongoing                              | Number of trees pollarded                          | Annual   |  |
| 2   | Collect records of barn owl | 2.1  | Monitor nest boxes for use. Have occupied boxes checked for success by licensed barn owl ringers. | Wildlife Conservation<br>Partnership | 2015   | (a) Number of nest<br>boxes checked by<br>licensed ringers<br>(b) Number of nest<br>boxes used | Annual once<br>boxes installed         |
| presence  | 2.2                         | Pass barn owl box information to CPBRC and NBIS      | Environmental Officer,<br>Wildlife Conservation<br>Partnership, CPBRC, NBIS                       | 2015                                 | Data sent via<br>Environmental Officer<br>annually | Annual once<br>boxes installed   |  |

## **Procedural Action Plan**

| Target<br>Reference | Target  | Action<br>Reference | IDB Actions   | Partners   | Date    | Indicators  | Reporting |
|---------------------|---|---------------------|---|--|---------|---|-----------|
| 1                   | Provide training on IDB<br>BAP and conservation<br>management of drainage<br>channels for all relevant<br>staff by 2013 | 1.1                 | Establish programme of 1-day courses for IDB staff and members  | Environmental Officer,<br>Wildlife Trust, Natural<br>England, other<br>specialists | 2013    | (a) Number of<br>courses held<br>(b) Number of<br>Board members /<br>staff attending<br>courses | Annual    |
|                     |   | 1.2                 | Establish suitable training for contractors' staff  | Environmental Officer,<br>Contractors  | 2013    | Contractors<br>attended training<br>course  | Annual    |
| 2                   | Take biodiversity into account when planning and undertaking capital works  | 2.1                 | Consult with the Environmental Officer and choose the best possible mitigation solutions for biodiversity, e.g. fish-friendly pumps | Environmental Officer  | Ongoing | (a) Number of capital schemes undertaken (b) Number of schemes commented on                     | Annual    |

Species list for Hundred of Wisbech IDB using data from the Cambridgeshire and Peterborough Biological Records Centre:

| Designation    | Taxon Group | Common Name            | Scientific Name                   |
|----------------|-------------|------------------------|-----------------------------------|
| UKBAP          | bird .      | Arctic Skua            | Stercorarius parasiticus          |
| UKBAP          | bird        | Common Bullfinch       | Pyrrhula pyrrhula                 |
| UKBAP          | bird        | Common Cuckoo          | Cuculus canorus                   |
| UKBAP          | bird        | Common Linnet          | Carduelis cannabina               |
| UKBAP          | bird        | Common Starling        | Sturnus vulgaris                  |
| UKBAP          | bird        | Corn Bunting           | Emberiza calandra                 |
| UKBAP          | bird        | Eurasian Tree Sparrow  | Passer montanus                   |
| UKBAP          | bird        | European Turtle Dove   | Streptopelia turtur               |
| UKBAP          | bird        | Grey Partridge         | Perdix perdix                     |
| UKBAP          | bird        | Hedge Accentor         | Prunella modularis                |
| UKBAP          | bird        | Herring Gull           | Larus argentatus                  |
| UKBAP          | bird        | House Sparrow          | Passer domesticus                 |
| UKBAP          | bird        | Lesser Redpoll         | Carduelis cabaret                 |
|                |             | Lesser Spotted         |                                   |
| UKBAP          | bird        | Woodpecker             | Dendrocopos minor                 |
| UKBAP          | bird        | Northern Lapwing       | Vanellus vanellus                 |
| UKBAP          | bird        | Reed Bunting           | Emberiza schoeniclus              |
| UKBAP          | bird        | Sky Lark               | Alauda arvensis                   |
| UKBAP          | bird        | Song Thrush            | Turdus philomelos                 |
| UKBAP          | bird        | Spotted Flycatcher     | Muscicapa striata                 |
| UKBAP          | bird        | Yellow Wagtail         | Motacilla flava                   |
