Outline detailed proposals on the latter are to be brought before the next Chair's meeting for consideration.

That a third Chair's Meeting was held on the 11th March 2019 and that discussions at this centred around :-

iii) Association of Drainage Authorities

a) Annual Conference

That the 81st Annual Conference of the Association had been held at the ICE building in Westminster on Wednesday 14th November 2018 and had been well attended with the main speakers being Sue Hayman MP, Shadow Secretary for Environment Food and Rural Affairs, Robert Hössen crisis management expert from the Netherlands, John Curtin, Executive Director of Flood and Coastal Risk Management at the Environment Agency and David Cooper Deputy, Director for Flood and Coastal Erosion Management at Defra.

Sue Hayman – Shadow Secretary of State for Environment, Food & Rural Affairs spoke about her first-hand experience of flooding in Cumbria, the impact of flooding on mental health, building on flood plains and river management without environmental change and funding.

Robert Hössen, an expert for a government organisation in Holland gave a presentation on how incident management is organised and dealt with in the Netherlands.

John Curtin from the EA gave a presentation on the effects of Climate change and referred to the government's discussions regarding the likelihood, impact and severity of climate change.

David Cooper from Defra referred to the 25 year environment plan and to various Government publications made in 2018, which can be reviewed online.

That the Officers had been re-elected, subscriptions would be increasing by 2% for the following year and the Conference marked the launch of the Good Governance Guide for Internal Drainage Board Members.

That the Conference also marked the first presentation of the Chairman's award which were presented to Ian Russell from the Environment Agency for his work on Public Sector Co-operation Agreements and to Cliff Carson, former Environmental Officer of the Middle Level Commissioners and the Boards, for his work which was instrumental in changing views concerning conservation.

b) Annual Conference

That the Annual Conference of the Association of Drainage Authorities will be held in London on Wednesday the 13th November 2019.

c) Annual Conference of the River Great Ouse Branch

That the Annual Conference of the River Great Ouse branch of the Association was held on Tuesday the 12th March 2019. The meeting format was changed this year and included a morning workshop session led by the EA. Topics covered were water resources, PSCAs and future planning of FRM. Robert Caudwell spoke for ADA in the afternoon followed by talks from Brian Stewart, RFCC Chair, Paul Burrows, the FRM Area Manager and Claire Jouvray, the Operations Delivery Manager.

That the date of the next meeting is Tuesday 3rd March 2020.

d) Good Governance Guide for Internal Drainage Board Members

That, at the Annual Conference last November, ADA launched the publication of the Good Governance Guide for IDB Board Members. It provides Members with a comprehensive guide to their role as water managers servicing the local communities. The document has been produced with the financial support of Defra and will provide Members with knowledge to help expand their grasp of the role, and how best to execute their responsibilities on the Board.

That a copy of the Guide for each member has been included with this agenda and can be downloaded from the ADA website.

That ADAs workshops were well attended and are helping to deal with the questions being raised by Defra following the Audit Commission Report which criticized aspects of IDB governance. At least one member of this Board attended one of the two local workshops in the area and hence the Board will be able to record in the IDB1 Defra return that training has been provided on Governance. In addition to governance Defra appear to expect over time that training will be given for the following; Finance, Environment, Health, safety and welfare and Communications and engagement. The Board may wish to consider an order of priority for future training and a timetable for delivery.

e) Workstreams

That ADA annually review their workstreams and an update on these is included.

(Copy pages 57-59)

iv) External Bodies Conservation Initiatives

That there are two projects which may have an impact on the Board:-

a) The New Life on the Old West project being led by Cambs ACRE which aims to improve public understanding of the unique nature of biodiversity in the Fens and to deliver improvements on community green spaces and the ditch network. At the time of report the project has received a £100k grant to develop the project to the point at which a further £3/4 million grant bid will be made to support delivery.

b) The Cambridgeshire Fens Biosphere, Heritage Lottery have provided £10,000 of funding to research what would be necessary to bring Biosphere Reserve status to the Fens. This project is being led by the Wildlife Trust with support from Cambs ACRE. If successful, this would lead to a new UNESCO designation. This would be a non-statutory designation which records the unique nature of the area. Most recently, the project received £1m for field scale alternative farming trial works in the Great Fen area and to assist with the Biosphere bid.

v) Catchment Strategy

That the EA, LLFA, IDBs and other partners are co-operating in a piece of work which is looking at the pressures on the catchment from a development and climate change perspective. The aim will be to develop proposals which will guide and inform discussion makers.

vi) Water Resources East Group Meeting

That the Middle Level Commissioners are setting up a Committee to discuss how they can work more closely with Anglian Water and other partners to ensure that the management of water and the quantity taken from the River Nene can be maximized in stressed years.

vii) Anglia Farmers

Further to minute B.170, the Clerk advises that the running of the remainder of the Anglia Farmers electricity contract has been monitored and is pleased to report that the service provided has improved.

In view of the significant increase in prices observed a utility specialist was approached and like for like prices at the time of tender, for a sample of meters, were requested in order

that a comparison could be made with the prices obtained by Anglia Farmers. Although some savings may have been made, overall the prices obtained from Anglia Farmers were found to be generally competitive.

A verbal report was presented to the Middle Level Commissioners at their last Board meeting and, based on the results of the pricing comparison exercise and in view of the service provided by Anglia Farmers having improved, the Middle Level Commissioners resolved to remain with Anglia Farmers for a further contract period post 30th September 2019.

The Clerk had recommended that the Board also remain with Anglia Farmers. However, should the Board wish to choose to end their current contract, notice was required to be given by late January/early February 2019 following which they would then be responsible for negotiating their own separate electricity contract thereafter.

The Clerk will report that the Chairman had subsequently agreed for the Board to remain with Anglia Farmers.

viii) The New Rivers Authorities & Land Drainage Bill

That this Bill has completed its Committee stage in the House of Commons and passed through its Third Reading. It has now started its progression through the House of Lords.

The Bill, which has been prepared by Defra, aims to put the Somerset Rivers Authority onto a statutory footing as a precepting body, but it would also enable the reform of IDB ratings annual value lists. It does this by recognising the need to ensure that the methodology through which IDBs calculate and collect drainage rates and special levy sits on a sound legal basis that can be periodically updated to contemporary values better reflecting current land and property valuation.

With the above in mind ADA has been working with Defra and a number of IDBs to test a new methodology using contemporary valuation and Council Tax lists that could be applied via this legislative change.

Quotes are being sought but at this time costs are not available and of course the cost per Board is likely to be reflected by take up of any offer made.
