Middle Level Commissioners

Management Accounts and Annual Return year ended 31st March 2026.

At the April 2026 Middle Level Board and Commissioners meetings at which the Rates and Special Levies for 2026/2027 were set probable out-turn figures for 2025/2026 were presented indicating an underspend against rates raised of £950,630. These figures included several provisions and estimates for outstanding invoices/charges.

Actual year-end figures now show an overall increase in the General Fund balance for the year of £921,997, thus increasing the General Fund balance from £2,943,051 to £3,865,048.

There has been some re-allocation of areas of expenditure and actual invoiced charges included in place of estimates and provisions made and the variances are shown on the monitoring report, pages 24-25.

Members are requested to consider and approve the Annual Governance Statement, page 4 and to consider and approve the Management accounts for the year-ended 31st March 2026. These figures have been then used for the completion of the Accounting Statement on the Annual return, pages 31-33 which the Board are asked to review and approve.
